

2 – 322 4<sup>th</sup> Street  
Estevan, SK S4A 0T8

April 10, 2017

For Immediate Release:

The Estevan Chamber of Commerce is pleased to present the 2017 Carbon Capture Summit. This one day conference, on May 11 with Event Partner SaskPower, will provide participants with the opportunity to tour the Carbon Capture Plant, and engage in an afternoon of information sessions with leaders in the industry from SaskPower and Cenovus, as well as a special presentation from The Government of Saskatchewan with The Minister of the Environment, the Honourable Scott Moe.

We are proud to announce the Southeast College as our Venue Partner and will be the site for the event. The day will begin with morning registration and breakfast; participants will then board a bus and go to the Carbon Capture Plant for a morning tour. After the tour, attendees will spend the afternoon learning how Carbon Capture works, its importance on a local and global scale and what the future holds for CCS.

The day will conclude with a Spirit of Saskatchewan Reception where participants can enjoy making new connections and discuss the day's events over appetizers, beverages and desserts.

Registration is now open, space at the event is limited and registration will close May 1. Please visit [www.estevanchamber.ca](http://www.estevanchamber.ca) to register for the full day or just the afternoon/evening event. For more information, or to become an event sponsor please contact the Estevan Chamber at 306-634-2828.
